Deletion of a Domain

delete_domain-1.png

To **delete** a domain, please:

- login at Joker.com
- on your dashboard, choose "delete" from the menu next to the domain name you want to delete
- a verification email will be sent to your email address - **you have to acknowledge** the deletion
- a deletion is free of charge
- **Resellers only:** gTLDs that are deleted within **72h** after registration are **fully refunded**

> **Please note:** Most domain names are **not** immediately available after a deletion. They usually enter a "pending delete" status determined by the domain's registry. Here you find more information regarding the Redemption Grace Period, and a domain name's life cycle.
