Hostbill Registrar Plugin

res-HostBill_Joker.png

Hostbill is a popular web hosting and automation solution, which includes:

- Hosting Automation
- Client Management
- Help Desk System
- Automated Billing
- Domain Management

If you are using Hostbill for your hosting activities, you can integrate Joker.com for the domain management within Hostbill using the Joker.com plugin. [1)]

At Hostbill's Joker.com-plugin page you find an overview of what is provided by our module:

- **Registration**
  Automated domain registration. When enabled, domain module connects registrar API to register new domain name ordered by client.
- **Transfer**
  Automated domain transfers. Customers can request domain transfer from other registrar to you. During signup customers are asked for EPP/transfer code used in transfer process.
- **Renew**
  Automated domain renewals. Renew function gives the ability to renew the domain name by customer-purchased period when domain is about to expire
- **Synchronize**
  Registry <-> HostBill synchronization. Domain synchronization allows your staff members to update HostBill domain records with registry details, ie. to make sure that domain renewal/expiration dates are in sync.
- **Import**
  Automatically import existing domains from Registry -> HostBill.
- **Premium names**
  Get premium domain price on registration page and register premium domain names
- **Lookup engine**
  Use registry API as lookup engine for fast & accurate domain searches
- **Manage contacts**
  Update domain registration contacts. Customers can manage contact details related to domains they have registered with you.
- **DNSSEC Management**
  Allow your customer to manage his domains DNSSEC keys at registry

- **Get EPP Code**
  This functionality lets your clients get domain EPP Code, allowing to transfer domain out.
- **ID Protection**
  This feature enables your customers to protect identity of their contact details stored.
- **Update Nameservers**
  Customers have the ability to change nameservers the domain is pointing to.
- **Register Nameservers**
  Clients can register their custom name servers using domain registrar API.

Installation:

The installation is easy, **the plugin is already included with Hostbill**, just activate the "Joker.com plugin" from within Hostbill:

Select Settings -> Modules -> Domain Modules, choose Joker.com from the list and "activate".

Usage:

Please find an easy step-by-step documentation at Hostbill's Joker.com plugin wiki.

Please send us your feedback: reseller-support@joker.com
Enjoy!

[1)] the Hostbill plugin is provided without any further obligation or promise of quality or reliability. The normal Joker.com restriction conditions apply.
