

Rights and Roles

grants-list

Requires:

| | |
|---------------|----------------------------|
| <i>domain</i> | Full qualified domain name |
|---------------|----------------------------|

Accepts:

| | |
|----------------|----------------------------|
| <i>showkey</i> | Show invitation access key |
|----------------|----------------------------|

Get a list of active and pending grants.

Returns lines in the following format (space-separated):

```
invitation <nr> <scope> <key> domain <domain-name> <role> - - - <invitee-email> <nick-name> grant <nr>
```

Where:

| | |
|--------------------|---|
| <nr> | record number |
| <scope> | Grant/Invite id (used to uniquely identify records for revocation) |
| <key> | Invitation access key, present only when "showkey" is non-zero; it has meaning only for pending invitations, and always is "-" for grants |
| <domain-name> | domain name (identical to domain in request) |
| <role> | one of @admin/@billing/@tech/@creator |
| <inviter-username> | your username (owner of the domain) |
| <invitee-username> | username of invited user |
| <invitee-userid> | [leave empty] user-ID of invited user |
| <nick-name> | name or comment you want to assign to this role |

grants-invite

Request parameters:

| name | value | mandatory |
|-------------------|--|-----------|
| <i>domain</i> | Full qualified domain name | yes |
| <i>email</i> | Email of user to be invited to accept a role for 'domain' | yes |
| <i>role</i> | Role offered (@admin/@billing/@tech/@creator) | yes |
| <i>client-uid</i> | receiving Joker.com user id as shown on Joker.com - also conforms to reseller-id | no |
| <i>nick-name</i> | Name or comment for this role/grant for later identification (defaults to email) | no |

With this request you can assign 'Roles' (permissions) of domains to other Joker.com users. The special role "creator" is an equivalent to an **internal transfer** of that domain to another Joker.com user. In this case, the domain is **assigned** to the receiving account's portfolio, including all rights and permissions on this domain.

There are two variants to use this functionality: If the **client-uid (Joker.com user account id)** is given, and the client-uid **matches** the **associated user's email address** in our system, the role is **applied immediately** - there will be no request for confirmation on the receiver's side. In case the client-uid is not given, but only the email address, the transaction has to be acknowledged by the receiving user. For this, he will get an email ('invitation'), containing a link and a key. Either the link has to be clicked, or the key has to be applied using Joker.com (=> Transfer). This can also be used for **users which do not yet have a Joker.com account**.

Returns status only (ok or not). Email is sent if request was successful.

grants-revoke

Requires:

| | |
|---------------|---|
| <i>domain</i> | full qualified domain name |
| <i>role</i> | Role to be revoked from domain (@admin/@billing/@tech/@creator) |
| <i>scope</i> | identifier from 'grants-list' request |
| <i>type</i> | type of the record to revoke - "grant" or "invitation" |

Deletes an issued grant (permission) of a domain, or a pending invitation for a grant.

Returns status only (ok or not). Email is sent if request was successful.
