# Rights and Roles

## grants-list

### Requires:

<i>domain</i>	Full qualified domain name
---------------	----------------------------

### Accepts:

<i>showkey</i>	Show invitation access key
----------------	----------------------------

Get a list of active and pending grants.

Returns lines in the following format (space-separated):

```
invitation <nr> <scope> <key> domain <domain-name> <role> - - - <invitee-email> <nick-name> grant <nr> <scope> domain <domain-name> <role> <inviter-username> <invitee-username> <invitee-userid> <invitee-email> <nick-name>
```

### Where:

<nr>	record number
<scope>	Grant/Invite id (used to uniquely identify record revocation)
<key>	Invitation access key, present only when "showkey" is non-zero; it has meaning only for pending invitations, always is "-" for grants
<domain-name>	domain name (identical to domain in request)
<role>	one of @admin/@billing/@tech/@creator
<inviter-username>	your username (owner of the domain)
<invitee-username>	Username of invited user
<invitee-userid>	[leave empty] user-ID of invited user
<nick-name>	name or comment you want to assign to this role

# Rights and Roles

## grants-invite

### Request parameters:

name	value	mandatory
<i>domain</i>	Full qualified domain name	yes
<i>email</i>	Email of user to be invited to accept a role for 'domain'	yes
<i>role</i>	<a href="#">Role offered</a> (@admin/@billing/@tech/@creator)	yes
<i>client-uid</i>	receiving Joker.com user id as shown on Joker.com - also conforms to reseller-id	no
<i>nick-name</i>	Name or comment for this role/grant for later identification (defaults to email)	no

With this request you can assign [Roles \(permissions\)](#) of domains to other Joker.com users. The special role "creator" is an equivalent to an **internal transfer** of that domain to another Joker.com user. In this case, the domain is **assigned** to the receiving account's portfolio, including all rights and permissions on this domain.

There are two variants to use this functionality: If the **client-uid (Joker.com user account id)** is given, and the client-uid **matches** the **associated user's email address** in our system, the role is **applied immediately** - there will be no request for confirmation on the receiver's side. In case the client-uid is not given, but only the email address, the transaction has to be acknowledged by the receiving user. For this, he will get an email ('invitation'), containing a link and a key. Either the link has to be clicked, or the key has to be applied using Joker.com (=> Transfer). This can also be used for **users which do not yet have a Joker.com account**.

Please see more details: [How to grant roles \(= grant permissions to others\)?](#).

Returns status only (ok or not). Email is sent if request was successful.

Keywords: grants, roles, contacts, permissions, invitations, transfer

# Rights and Roles

## grants-revoke

### Requires:

<i>domain</i>	full qualified domain name
<i>role</i>	Role to be revoked from domain (@admin/@billing/@tech/@creator)
<i>scope</i>	identifier from 'grants-list' request
<i>type</i>	type of the record to revoke - "grant" or "invitation"

Deletes an issued grant (permission) of a domain, or a pending invitation for a grant.

Returns status only (ok or not). Email is sent if request was succesfull.

Keywords: grants, roles, contacts, permissions, invitations
