

# 1.8 Renewals

## Simple Renewal

### Simple Renewal

In case you have difficulties to renew a domain - e.g. because you have issues with your login account, or your designated administrator missed to renew it for you - **you are always able to renew a domain** for one year by using [Simple Renewal](#).

You not even need to be logged in, you just have to provide the domain name.

**The domain will be extended for one year, no other data, permissions, claims or other aspects of this domain will be changed by this renewal.**

Unique solution ID: #1091
