

# 1.8 Renewals

## Why did I get a renewal notice/invoice from another registrar?

### Fake Renewal Offers

Some other parties do send renewal announcements for domains which are **not** registered through them to domain holders, often with bogus and overpriced renewal rates, sometimes also with non-obvious transfer attempts.

You will find Examples and more details on how these scams are intended to work here:

- [ICANN on Domain Scams](#)
- [About fake "Renewal Reminders"](#)

**Please disregard any such offer or notice which is not from Joker.com, or your responsible provider!**

Unfortunately, there is not much we can do about this, since these parties usually are not within practical legislation.

But please report this to [ICANN](#).

**If you get such a notice, please visit [Joker.com](#) to check your domain's status before following any other "renewal procedure".**
