

1.8 Renewals

Why did I get a renewal notice/invoice from another registrar?

Fake Renewal Offers

Some other parties do send renewal announcements for domains which are **not** registered through them to domain holders, often with bogus and overpriced renewal rates, sometimes also with non-obvious transfer attempts.

You will find Examples and more details on how these scams are intended to work here:

- [ICANN on Domain Scams](#)
- [About fake "Renewal Reminders"](#)

Please disregard any such offer or notice which is not from Joker.com, or your responsible provider!

Unfortunately, there is not much we can do about this, since these parties usually are not within practical legislation.

But please report this to [ICANN](#).

If you get such a notice, please visit [Joker.com](#) to check your domain's status before following any other "renewal procedure".
