

2.1 General information

What is the so called "Additional Whois Signature" for?

The "Additional Whois Signature" is part of the data asked during the registration as a Joker.com reseller.

Those input fields are optional, but if you provide them, they will be **used to publish your strings in global whois** for your domains.

This way your customers are able to **identify you as their domain provider**.

The strings you provide will be shown as "Sponsoring Reseller".

Please note: You can provide or modify this data at any time in the [Reseller's Area](#).

Unique solution ID: #1124
