

# Basics

## Should I use PGP or GPG?

It does not matter if you use PGP or GPG, the version is not important as well. Just make sure that your program is able to put PGP signatures into your mail in the format described above.

Please have a look at the following web sites to get the newest versions and lots of explanation on the programs.

<http://www.pgpi.org/>

<http://www.gnupg.org/>

### ATTENTION:

Users of GPG have to use the following flag:

```
gpg --clearsign --force-v3-sigs ....
```

Otherwise our system will reject your signed mails.
