1.3 Domain Registration
How to grant roles (= grant permissions to others)?

Roles and Permissions

You always can **invite** additional individuals (beside you) to **administrate** your domain(s). For this, you can assign so-called "**roles**" to other people, which define what sort of access is granted.

Important: These "roles" solely allow to grant access to your domains **within Joker.com**, they do not have any impact on what is shown in Whois as published contacts.

To invite somebody to get access to your domains, a special link is sent to the email address you provide. If the invitee does not already have a Joker.com login, he will get a chance to register when he clicks the link in this email.
Enter a "Description" to name the individual grant, to be able to identify your grants later.
You always may issue grants or revoke existing grants in "[My Domains](...)".

In case you are a Joker.com Reseller, you may also use additional option '**Direct assignment**' to assign roles. This means, that you can assign a permission to another Joker.com account, which then becomes effective instantly, and no invitation will be sent. This means that with "**Internal Transfer**" and "Direct assignment" **you can move (transfer) domains between different - also your own - Joker.com logins**.

Available roles:

- **Admin:** Modify domains e.g. Whois data, modify nameservers, modify nameserver records like IP addresses, URL- and mail forwarding; **transfer away or deletion of a granted domain is not possible** for this role, this only can be done by the legal owner (creator) of a domain
- **DNS Admin:** Modify nameservers, modify nameserver records like IP addresses, URL- and mail forwarding
- **Billing:** Renew domains, receive expiry notifications
- **[Resellers only] Internal Transfer/Assignment:** Complete assignment of a domain to another Joker.com user (Internal Transfer). This allows for transfering all claims and permissions on a domain to **another Joker.com user**

Resellers additionally may use:

- option '**Direct assignment**' to not use the invitation process, no invitation will be sent. You have to provide the **receiving user's email address** and his **matching Joker.com**

1.3 Domain Registration

User-ID for this. The Joker.com User-ID is always shown in the upper right after the login name.

Unique solution ID: #2426
