

1.3 Domain Registration Whois Privacy Services

Secure your Domain Privacy

As of **May 25th 2018**, most european and all generic domain types (top level domains) have redacted their amount of Whois data which is published to the internet to comply to the european data privacy regulation (**GDPR**).

However, **the registrant data still has to be sent to the registries. And there are still top level domains which do require the full set of Whois data, and do publish this full set.**

This WHOIS service is available to everyone, and usually includes the name, and sometimes - depending on the policy of the responsible registry - also street address and email addresses of the registrant. The use of incorrect, incomplete or fake data is a violation of the registration agreement of the related registry and Joker.com, and may lead to the deletion of the related domain name (please also see 5.c/11.d of Joker.com T&C).

To **protect a registrant from abuse of his data**, proxy-privacy.com through IDPS (International Domain Privacy Services) GmbH - a subsidiary of CSL GmbH - provides privacy protection services, effectively shielding his information and **keeping his data confidential**. By using these services, the registrant is represented by alternate contact data provided by IDPS GmbH, while remaining **compliant** to the registration policies.

The registrant's own data will still be maintained and escrowed by Joker.com, to secure the registrant's ownership of the domain, and to ensure the compliance to ICANN's and registry's policies.

Privacy Services **are available for most gTLD domain names**. The availability of privacy services is indicated in [price list](#) and [domain search](#) (icon ).

1.3 Domain Registration

Here is an example of what privacy service means to a domain name's public Whois output:

	Standard Whois Output ^{*)}	With Privacy Basic	With Privacy Pro
Registrant Name:	Max Musterman	Max Musterman	On behalf of yourdomain.com
Registrant Organization:	ACME	ACME	c/o IDPS International Domain Privacy Services GmbH
Registrant Street:	Main Street 123	c/o IDPS International Domain Privacy Services GmbH	Hansaallee 191
Registrant City:	Foo City	Hansaallee 191	Duesseldorf
Registrant State/Province:	ABC	Duesseldorf	
Registrant Postal Code:	54321	40549	40549
Registrant Country:	DE	DE	DE
Registrant Phone:	+99.110 12345678	+49 211 867 67 448	+49 211 867 67 448
Registrant Fax:	+99.110 12345679	+49 211 867 67 6448	+49 211 867 67 6448
Registrant Email:	yourprivatemail@email.com	35b27c46c3d9040b881fc4f@proxy-privacy.com	35b27c46c3d9040b881fc4f@proxy-privacy.com

^{*)} Without WHOIS privacy for non-GDPR-compliant TLDs

Prices are available here: [Joker.com Pricelist](#)

Please note:

1.3 Domain Registration

- when privacy services are selected, the registrant is still required to provide Joker.com with the correct and valid personal Whois data. This Whois data will be maintained and escrowed (including encryption) by Joker.com to preserve gTLD compliance. **Joker.com does use a german escrow provider for this (DENIC).**
- the registrant and the account holder are at all times enabled to turn on or off (disclose) Whois privacy services on their own.

- when privacy services are acquired together with a transfer to Joker.com, the added term of privacy service will always be one (1) year, plus the remaining term until the domain's day of creation, and it will be charged for one year.
- when privacy services are purchased for already existing domain names, either as an option during renewal of a domain, or as an additional option for an existing domain name, the term of the privacy service will automatically be synchronized with the term of the domain name. Terms of less than **6 months** will be rounded down, above this will be rounded up and charged as an additional year.
- when privacy services are purchased without renewal for the term of an existing domain, the minimum charge will always be one (1) year of the chosen privacy service, even when the remaining term of the domain is less than one year. You should consider a renewal with included privacy option in this case, to avoid eventually shortened privacy terms.

Examples:

Transfer with privacy service

Let's say a **.com** domain of you has a remaining term of **5 months**, and you want to transfer it to Joker.com, and you chose **privacy basic** for the transfer.

This would result into

mandatory 1 year renewal with transfer:	USD 13.70
optional 1 year privacy basic service:	USD 1.49
result - 1 year additional domain term, and 17 months of privacy	<u>USD 15.19</u>

Renew with privacy service (I)

Let's say you want to renew a **.com** domain, which is due to expire in **3 months**. With the renew, you want to enable Whois **privacy pro**:

1 year renewal for .com domain:	USD 13.70
1 year privacy pro service:	USD 2.49

1.3 Domain Registration

result - 1 year additional domain term, and **15** USD 16.19

months of privacy

the additional 3 months are "rounded down" - means, they are added, but not charged

Renew with privacy service (II)

Let's say you want to renew a **.com** domain, which is due to expire in **8 months**. With the renew, you want to enable Whois **privacy pro**:

1 year renewal for .com domain: USD 13.70

2 years privacy pro service: USD 4.98

result - 1 year additional domain term, and **20** USD 18.68

months of privacy

the additional 8 months are "rounded up" - means, an additional year of privacy is charged

Acquire privacy service for an existing domain (I)

Let's say you own a **.com** domain, which is due to expire in **13 months**. You want to add **privacy pro**:

1 year privacy pro service: USD 2.49

result - domain term is unchanged, and 13 USD 2.49

months of privacy

the additional 1 month is "rounded down" - means, they are added, but not charged

Acquire privacy service for an existing domain (II)

Let's say you own a **.com** domain, which is due to expire in **3 months**. You want to add **privacy pro**; you will get a warning, because the privacy term cannot exceed the domain's term. You should consider using "Renewal" with privacy option in this case:

1 year privacy pro service: USD 2.49

result - domain term is unchanged, and 3 USD 2.49

months of privacy

you will only get 3 months of privacy service - you should consider 'renewal' instead
