

1.3 Domain Registration

What domains can be ordered?

Domain Registration

Joker.com currently offers **most of the generic top-level domains** (gTLDs) - including the new top-level domains (ngTLDs), and a lot of **ccTLDs** (country domains). Please find the complete list [here](#).

Most top-level domains are available for one (1) up to ten (10) years.

At any time you may renew (prolong) your domain. Before your domain expires, you will be notified by email and asked to renew it. Please find details about this here: [How to renew a domain?](#) and [ERRP - Expired Registration Recovery Policy](#).

Resellers also are able to make use of **automatic renewals** ([Auto Renewal](#)) of selected or all domains.

To order domains, please click [here](#).

Unique solution ID: #1053
