

1.15 What is...

What is an "OT+E" System?

OT&E Systems

OT&E means "**Operational Test & Evaluation**".

This usually is the name for *testing and evaluation* systems, where activities never will affect "real" data or assets like registered domains or contacts.

Our OT&E system is a kind of "copy" of Joker.com, where special "fake" registries are connected. Domain orders and object manipulations can be performed without having to operate on real data.

This is to allow for **resellers** to **try out** their scripts and methods, using Joker.com **API** and tools.

Our OT&E system mainly consists of

- www.ote.joker.com (standard web frontend)
- ote.rpanel.io (rpanel reseller frontend and code example)
- dmapi.ote.joker.com (Joker.com API)
- whois.ote.joker.com (Whois)
- reseller@ote.joker.com (Mail-Gw)

In case you are interested in using these systems, please consider [becoming a reseller](#) of Joker.com.

Resellers do benefit from **discounts of up to 40%** on all prices.
