

1.15 What is...

What is a 'Premium Domain'?

Premium Domains

[Premium Domains](#) usually are domains not available at the normal/fixed rate for this type of domain.

There are these major types of premium domains:

1. registered domains offered by **global networks**, run by companies, with individual prices; have to be purchased by transferring the domain
2. domains offered by the **registries** at special rates, to be purchased using domain registration
3. **expired domains** - domains which have not been renewed by their former owner, currently at the end of the [RGP](#) phase

Joker.com does offer all types of premium domains. Most of them are available using the regular order process. For the RGP expired domains, there is a [special section](#) to order these.

Domains of the first type have to be transferred during the order. This usually happens in real-time, because those domains are already prepared for "fast transfers".

Prices do cover a wide range - if you need the right domain name for your new business, [you probably will find it here](#).
