

1.4 Changes of a Domain

What can not be changed?

Restrictions on Changes

If you **register** a domain, you are able to control [most aspects of this domain](#):

- domain attributes (locks, privacy)
- whois data
- nameservers
- nameserver records (in case you use Joker.com nameservice)

In case you have access to a domain **because somebody else assigned you a role** ('permissions') for this domain, you only are able to modify aspects **limited by this role** (=> [How to grant roles \(= grant permissions to others?\)](#)).

Important: You are obliged to enter only valid and true address and identity information for Whois data. This is a requirement of all domain registries.
