

# Domains

## Renew a domain

Introduction

Renew vds-domain

Valid values for vds:

- com
- net
- org
- info
- biz
- edu
- name
- us
- ca
- cn

With this request you can renew up to 500 domains at Joker.com.

You have to provide the following information within the request:

- the domainName(s)
- the renewalPeriod or the desired expirationYear

You can renew up to 500 domains with one request.

Due to the fact that you can renew more than 1 domain with one request, the format is a little bit different from the other requests. Please check the given examples on how to specify the renewal period.

If the sum of the expire time and the renewal time is more than 10 years, we will reject your request.

This request is not working for domains, which are locked on the old system. For these domains you have to check the documentation of the old system.

If you provide the expire year, this request will reject, if the current expire year is greater than the desired. This feature prevents an error in case 1 renew-request is sent twice by mistake.

Request fields

mailsubject: renew vds-domain [your reference id]

Definition of the request

# Domains

You have to provide the domain name and the renewal period or the desired expiry year using the format "YYYY" on one line. You have to separate each field with a "-" (ASCII 45). The maximum for the renewal period is 9 years.

Domain Name	Renewal Period	Expiry Year
example.com	1	2024

## COM Renewal

**Example 1:** renew 1 domain for 1 year using the field period  
subject: renew com-domain {your reference id}  
domain@minus-100.com.1

subject: renew net-domain {your reference id}  
domain@minus-100.net.1

**Example 2:** renew 5 domains for 4 years using the field period  
subject: renew net-domain {your reference id}  
domain@minus-100.net.4  
domain@minus-100.net.4  
domain@minus-100.net.4  
domain@minus-100.net.4  
domain@minus-100.net.4

**Example 3:** renew 5 domains for different years using the field period  
subject: renew net-domain {your reference id}  
domain@minus-100.net.1  
domain@minus-100.net.2  
domain@minus-100.net.3  
domain@minus-100.net.4  
domain@minus-100.net.5

**Example 4:** renew 1 domain using the field expiryyear  
subject: renew net-domain {your reference id}  
domain@minus-100.net.2005

## ORG Renewal

**Example 1:** renew 1 domain for 1 year using the field period  
subject: renew org-domain {your reference id}  
domain@minus-100.org.1

**Example 2:** renew 5 domains for 4 years using the field period  
subject: renew org-domain {your reference id}  
domain@minus-100.org.4  
domain@minus-100.org.4  
domain@minus-100.org.4  
domain@minus-100.org.4  
domain@minus-100.org.4

**Example 3:** renew 5 domains for different years using the field period  
subject: renew org-domain {your reference id}  
domain@minus-100.org.1  
domain@minus-100.org.2  
domain@minus-100.org.3  
domain@minus-100.org.4  
domain@minus-100.org.5

**Example 4:** renew 1 domain using the field expiryyear  
subject: renew org-domain {your reference id}  
domain@minus-100.org.2005

## INFO Renewal

**Example 1:** renew 1 domain for 1 year using the field period  
subject: renew info-domain {your reference id}  
domain@minus-100.info.1

**Example 2:** renew 5 domains for 4 years using the field period  
subject: renew info-domain {your reference id}  
domain@minus-100.info.4  
domain@minus-100.info.4  
domain@minus-100.info.4  
domain@minus-100.info.4  
domain@minus-100.info.4

**Example 3:** renew 5 domains for different years using the field period  
subject: renew info-domain {your reference id}  
domain@minus-100.info.1  
domain@minus-100.info.2  
domain@minus-100.info.3  
domain@minus-100.info.4  
domain@minus-100.info.5

**Example 4:** renew 1 domain using the field expiryyear  
subject: renew info-domain {your reference id}  
domain@minus-100.info.2005

## SO2 Renewal

**Example 1:** renew 1 domain for 1 year using the field period  
subject: renew so2-domain {your reference id}  
domain@minus-100.so2.1

**Example 2:** renew 5 domains for 4 years using the field period  
subject: renew so2-domain {your reference id}

# Domains

domain0 minip-100.biz-4
