How to Transfer a domain to Joker.com?

Transfer Domains to Joker.com

According to ICANN regulations, the 'gaining' registrar (Joker.com) has to initiate the process of transferring domains between registrars. To start the procedure, Joker.com has to "Obtain express authorization from either the Registered Name Holder or the Administrative Contact" Currently, The possession of the AUTH-ID fulfills this condition.

Please login to Joker.com, and choose '[Transfer a Domain to Joker.com](#)' in menu 'Domains'.

Enter the domain name you want to transfer (without "www."), and follow the order process - you will be guided through this.

To transfer a domain to Joker.com (except .uk domains), you have to provide a so-called [AUTH-ID](#) (also known as 'Domain Password'). This AUTH-ID will prove your authorization regarding to this domain.

You have to request this AUTH-ID from your current Registrar!

Please note: In general, the domain must be registered for at least 60 days, before a transfer is possible.

During the transfer, you have the choice of keeping the current domain information (whois, nameservers), or to assign new ones. This of course also can be done afterwards in '[My Domains](#)'.

Course of action summarized in detail:

1) Transfer Preparations

Please check at your current/old registrar:

- often **you have to "unlock" your domain**, or to 'apply' for a 'change of registrar'.
- request the **AUTH-ID** of the domain to be transferred

- enter the domain data for contacts like with a regular domain order:
 - according to the GDPR and for technical reasons, we can not automatically transfer your existing domain contact data
- then please enter the payment details

3) Processing the Transfer

After getting the AUTH-ID and your other information, we will charge for the transfer. If this attempt succeeds, we will forward the transfer request to the registry. The registry in turn will notify your current (old) registrar.

Depending on the procedures of **your current (old) registrar**, he will ask you, the owner and/or admin-contact for verification by email or otherwise. Be cautious with the emails of your old registrar, some of them are confusing, some may look like SPAM. You may have to answer this properly, or the transfer request might be denied.

4) Finishing the Transfer

After a maximum of 5 days, we will get informed by the registry whether the transfers succeeded or failed. You will be informed immediately after we get this notification. If the transfer succeeded, you can immediately use the domain.
