

Other query-whois

Accepts:

domain	Domain name	Exactly one of those must be specified. Only objects registered with Joker.com may be queried.
contact	Contact handle	
host	Nameserver	

Returns:

Information about specified object (similar to whois), in the format "key: value".

The difference to the *query-object* request is, that this request reflects actual (live) data in Joker.com database, while *query-object* may show data which not yet up-to-date.

Unique solution ID: #2436
