

1.6 Change of Owner

How to Change the Owner of a Domain?

Change of Owner

If you register a domain with Joker.com, you are the 'owner' of this domain, in the sense that this domain will be added to your **domain portfolio**, and you always have full control over this domain.

Your role then represents that of the Joker.com "**account holder**". **As of 2016-12-01, this role is also regarded as the "Designated Agent" of a domain (DA)**. This has been introduced in the [ICANN Change of Registrant policy](#) (COR).

The responsibilities of a DA are regulated within Joker.com's [Terms & Conditions](#) specifically by sections 5b),g),h) and 14b) and d). The definition of the concept of a DA is additionally defined in **addendum 1**) in the T&C.

There is also a contact named as 'registrant', which defines the official identity of the domain owner according to ICANN and/or Registry requirements.

As with all registrant data, you are enabled to maintain the registrant using the [Joker.com domain management](#).

Please note:

- as of **2016-12-01**, the change of a registrant (**COR**, owner change) of a generic top level domain requires an extended procedure introduced by [ICANN](#):
 - in general, the **prior** registrant **and** the **new** registrant have to **confirm the change**
 - for this, emails will be sent to both, which contain coded links to acknowledge the transaction
 - **the designated agent (DA) is also permitted to decide upon this** (pls. see above)
 - before the process is started, the initiator also has the option to **not** apply a 60 day transfer lock after the change of registrant. Otherwise, this lock **will be applied by default**
 - for Resellers, we do [provide](#) some extended [IRTP-C options](#) and tools to handle COR and secure keys
 - the full policy can be found [here](#)
- You are obliged to enter valid and true address and identity information for Whois data. This is a requirement of all domain registries

1.6 Change of Owner

In case you want to **assign** a domain to another person (in the sense of **moving a domain into another Joker.com user's portfolio**), please visit Joker.com and choose [Domain - Change ownership or permissions](#).

You will also find more information about 'roles', 'permissions' and 'assignments' [here](#).

In case you want to **claim ownership** of a domain for yourself, please also visit the section [Domain - Change ownership or permissions](#).
